Subject: Remedy Case

As an IT professional I need choices to satisfy my work daily. MS has proven that they are in direct violation of Anti-trust laws governing the denying the consume fo such choice by their use of strong arm tactics and backdoor meetings. I strongly urgeyou to not allow them acess to public schools in one case and to strongly reprimand them in the other.

This is for the good of business and the IT community.

Regards,

L. Thomas Solet
